## The light and multifunctional compass awning!

A simple solution for Camper Vans and SUVs that allows you to protect yourself from the sun.

The awning is disposed at 270° around the vehicle and is characterized by extreme ease of assembly and disassembly. It is therefore suitable for any occasion, from touring to a trip outdoors, from a simple picnic to a few hours of relaxing.

### Choosing guide

- Awning with manual opening and closing
- Wall installation
- Installation brackets optionally available, p.87
- Suitable for campervan and 4x4
- Lengths 220 and 260
- Big shade surface
- Canopy Light Grey and bag Silver or Black

### Canopy & bag finishes

## Installation

Installation can be done using Fiamma Adapter Kit 98655Z018 on VW T5 and T6 Multivan and Transporter models

### Attention:

when the awning is fully open, for safety reasons, it only allows partial opening of the rear door.

## Soft Bag

External bag of high quality fabric (polyester for Black version and PVC for Silver one), super-resistant and anti-UV with zipper closure

## Resistant to torsion:

The sturdy support aluminium structure on the back side of the bag ensures maximum resistance to torsional stress and allows the **specific** installation brackets to be used

## Canopy

The canopy is separable from the bag through a zipper, facilitating replacement if necessary. Light grey polyester canopy, maximum durability, waterproof, resistant to dirt and wrinkle-free

## Easy and quick opening

A single person is able to open and close the awning autonomously

The awning is manually operated. The arms with integrated legs, lightness of the structure and fabric make the opening and closing of the awning simple and fast. It can be done even by one person.

Light, durable and quick to assemble

### Ripstop fabric, quality guaranteed

Privacy Ultra Light is made from Ripstop material, a lightweight and tear-resistant fabric. The mesh of the Ripstop fabric is characterized by a weave of threads through different sections that create strength and sturdiness, whilst remaining light. The characteristic of lightness allows the user to carry out assembly quickly and easily. Installation can easily be carried out by just one person.

Ventilated roof for optimal temperature

### Improved comfort

The double roof, (the awning fabric and the Ripstop Privacy roof) creates an air chamber with constant ventilation thus lowering the temperature inside the Privacy.

The side panels can be completely rolled up to offer greater comfort and coolness and are both equipped with mosquito nets.

Great versatility

### Possibility to increase the shade surface

The Privacy Ultra Light allows you to fully open the side panels extending the shade surface.
